

1. 審查者增加討論項目

4.3討論

事業部的職能相關性及準則重要度:事業部主管在經營管理上往往需要具備多元化能力，並要能夠將所屬產品研發、市場銷售、達到市場競爭力，其所具備之職能，更顯得相互去支持，在本研究構面下依表4-1總影響矩陣及圖4-1因果圖中顯示，高階管理職能對專業技能及應變能力具有直接影響關係，與高階主管特質上是屬於雙向關係，也因此企業在事業部主管的強化或培訓上，可透過教育訓練以高階管理職能課程來優先進行，可提升事業部主管推動所屬組織之運作。

在準則的重要度（D+R）部分，前四項順序為領導能力、商業談判、問題解決、團隊異質性，也顯示出因素的影響程度或強度，數值越大，影響的程度和重要性就越大，其中，

因此在事業部的選任評估上最重要性的準則以『領導能力』考量的最重要因素，也代表著企業在選任部門主管，尤其在屬於產品事業的部門之高階主管的優先選任條件上，可以偏向以具有領導能力主管為優先，若接替主管能力尚嫌不足，如同Spencer & Spencer(1933)所提出的冰山理論中，說明瞭冰山下屬於隱性的潛在職能，包括自我概念，特質和動機，可藉由訓練發展，工作條件、組織環境等多方配合則可獲得或予以提升。

準則間相關性原因度: 在原原因度（D - R）部分，以『業務開發能力』值為最大，它是一個積極的影響者，並且會影響他人，值越大，此因素對其他因素的直接影響越高，因此業務開發能力，在事業部主管職能中顯現出其對其他相關準則之影響力，畢竟事業部的發展就是以開發市場為其重要績效，具有業務開發能力之特質，對溝通能力、問題解決、商業談判、抗壓性等均會有影響性，以致若能提升主管的業務開發能力，相對能同時提高其他相關準則之績效

在原原因度（D - R）為負的部分，負數越大代表被影響程度越大，本研究中所顯現出為準則為『承擔責任的毅力』及『抗壓管理』為負值最大值的兩項，很明顯發現在『責任』、『壓力』部分是最容易被其他準則影響，可以發現在主管各職能的績效提升或降低，對主管承擔之壓力與責任都有相對的影響。

在準則網路圖可分析為: ①領導能力:發現偏向以『領導能力』為中心的關係網路圖，事業部主管之領導能力對其他準則的相對影響度是高的，以致可以說明企業在決定事業部主管人選優先以領導能力為評估標準。

②問題解決能力:『問題解決能力』與『領導能力』為相互影響關係，當具有解決問題能力之職能，對組織領導能力之提升有一定的影響，反之具有領導能力之職能，相對更能夠對企業營運遇到的問題進行解決及改善。

③組織溝通能力:『組織溝通能力』對『業務開發能力』及『敬業樂群』具有相關影響性，擁有溝通能力之主管在企業經營當中可以透過其溝通技巧在業務上增加客戶關係，在組織除盡守本分外與各層

級人員能合作相處更能深獲同事們的肯定。

④團隊異質性:當事業部主管異質性高，則對產品創新能力有一定之影響力，甚至能開發出市場差異性的新產品。

構面及準則權重:以圖4.1顯示出權重中所知重要性可以看出在事業部主管選任關鍵的，在構面中以高階管理概念職能及具備應變能力兩項權重較高，而高階管理職能數值最高(0.2725)，但高階管理職能提升上較無法立竿見影，主要其所涵蓋的知識面、認知面、思考面都需要有完整的經歷與管理概念結合方可達成，也因此可透過在職進修商管課程學習管理概念知識或委外教育訓練都能強化事業部主管的管理職能，故能提升領導及組織能力，而在準則中集中在異質性、策略思考、商業談判、問題解決能力這些準則上，可以顯現出，事業部主管的思考獨特性是非常重要的，經過其思維所顯現出之行為模式，則能領導組織，創造企業的利潤

而本研究中從24項雛型準則中，在專家問卷評選後為聚焦關鍵因素設立了門檻值，而後採用了數值較高的16項的準則進行討論，而從此過程中，發現在原先建構中很突現之準則例如:教育程度,正直坦白,團隊合作,財務成本觀念等四個項目中在專家的最後評選中確未被歸納討論項目中，可從教育程度項目發現高階主管的教育水平也許是必備的，但並非是絕對的，且正直坦白這個項目也是職場員工做人做事原則之一，但高階主管的特質中，尤其在負責組織營運責任的主管，大部分專家確主動的忽略這項特質，更突顯出市場競爭下，領導者的思維皆需要嚴謹審密，不會輕易讓與其相處者洞悉其想法，而在團隊合作中因事業處主管本身即為產品最高負責人，與其他各事業部屬組織中競爭角色，故團隊合作的重視度也不高，另外在財務的成本觀念上，也屬重視度不高，顯示出具概念觀念即可，其專業領域部分可由專業者來負責協助。

事業部主管選任評估方案排序:

本研究以偏好順序方案探討出之人選排列順序之功能部門為業務、生產、行政、研發。

2. R1 第二次回覆

Comments and Suggestions for Authors

The article still requires minor improvements:

Thank you very much for your comments. We revised the content as follows

- Figure 1. It is better to leave just the word 'President' in the top box and keep all the explanations in the title of the chart. This way it will be much more elegant;

We have changed in line 120

2) Additional corrections are required in the new sections:

Line 506: wereestablished - obviously needs to be split into two words;

were established

We have changed in line 509

3) Similar,

Line 512: the item open honestyis also one - needs correction;

We have changed in line 515

4) Similar,

Line 508: During this process, it is found - "it was found" etc

We have changed in line 511

5) Similar,

Line 547: inclined to analyzing - should be 'inclined to analyze';

We have changed in line 550

6) Check the meaning of this sentence:

Line 554:

herefore, by means of analyzing the experts in various working environments based on different research methods, this study expects to construct a reference for companies' appointment of division manager and highlight the weight as well as correlations of key factors, so as to provide a more specific reference for organizational development.

Shouldn't you be speaking about the 'opinion of the experts' and not analyzing the experts themselves?

Also, 'different research methods' in a scientific article doesn't sound right. Name the methods - fuzzy sets etc.

We have changed in line 558-559

Also, 'weight' needs to be replaced by 'weights' - because you have many factors.

For correlations, it is better to use the preposition 'between'.

We have changed in line 560

Therefore, a major English grammar and style check and correction is required before publication.

We have checked and corrected it again

給作者的意見和建議

文章還需要小幅改進：

1)

圖1。最好只在頂部框中留下“總統”一詞，並將所有解釋保留在圖表標題中。這樣它會更加優雅；

2) 新章節需要額外更正：

第 506 行：are created - 顯然需要拆分成兩個詞；

3) 類似，

第 512 行：項目打開誠實也是一個 - 需要更正；

4) 類似，

第 508 行：在此過程中，找到了 - “已找到”等

5) 類似，

第547行：傾向於分析——應該是“傾向於分析”；

6) 檢查這句話的意思：

第 554 行：

因此，本研究通過基於不同研究方法對不同工作環境下的專家進行分析，以構建企業任命部門經理的參考，並突出關鍵因素的權重和相關性，以提供更多組織發展的具體參考。

難道你不應該談論“專家的意見”而不是分析專家自己嗎？

此外，科學文章中的“不同的研究方法”聽起來也不對。命名方法 - 模糊集等。

此外，“權重”需要替換為“權重”——因為你有很多因素。

對於相關性，最好使用介詞“介於”。

因此，在出版前需要進行一次主要的英語語法和風格檢查和更正。

3. Report 1 修改內容

The article 'Evaluating Appointment of Division Managers Using Fuzzy Multiple Attribute Decision Making' is presenting a new method of evaluating division managers at a high scientific level. In general, the article makes a positive impression and is written in the best traditions of operations research in Taiwan.

The authors introduce a methodology based on fuzzy set theory and explain in great detail the foundations of the methodology and the approach. The selection of the division managers is an important procedure in business organizations and having a structured approach would undoubtedly be of use. The key manuscript strength is in the chosen methodology that allows working with qualitative and verbal characteristics converting them into fuzzy numbers. The key weakness as I see it is the presentation of the results, especially the second part of the paper where often times a table is found followed by a figure followed immediately by another table. This needs to be addressed. The article needs to have a more natural flow, where the meaning of the table or a diagram are explained well in the text and they do not follow one another without any explanations. What was not so clear is the actual practical implications of the proposed methodology. The article states that the method was applied in the Taiwanese context but it is not clear if the application of the methodology allowed to select a more suitable individual as a division head as opposed to the candidate selected without the proposed methodology. In other words, it needs to be made clearer in the conclusions how the application of the method improved the selection procedure, who was selected, what were those additional qualities that were overlooked in the traditional evaluation.

This would make the paper much more appealing.

The following aspects might need consideration:

- The article would benefit from a clearer explanation of the results. Currently there are areas where a table follows a figure followed by a table, which is a bit difficult to

comprehend. This will need to be redesigned to provide a more natural flow of the article, explaining what is meant by certain tables and charts in a little bit more logical manner;

Figure 2 is removed (repeat description, which has been described in the original Table 5)

Figure 11 is removed, including the relationship, results are directly described in the form of text (line 410)

- Line 47: a dot (.) needs to be replaced with a comma (,).

We have changed (line 51)

- Line 191-192 The sentence needs stylistic correction;

We have changed

- Line 244-247 Signs and indices in the formulas need to be thoroughly checked and corrected.

We have changed in line 231-234

- The conclusions would benefit from a clearer explanation of what are the advantages of the proposed method compared with existing approaches, how the application of the proposed methodology changed the selected candidate, what were additional qualities that were overlooked in the traditional assessment.

Has been added in conclusion as supplement. Line 540-557

6) The title has two unfortunate typos: 'Multiple Atttribute' should be changed to 'Multiple Attribute'.

Overall, I am proposing a major revision focusing on the clarity of the research results and explanation of the value of the proposed method compared to the analogues.

We have changed

“用模糊多內容決策評估部門經理的任命”一文提出了一種在高科學水準上評估部門經理的新方法。總的來說，這篇文章給人留下了積極的印象，並且是按照臺灣運籌學的最佳傳統撰寫的。

作者介紹了一種基於模糊集理論的方法，並詳細解釋了該方法的基礎和方法。部門經理的選擇是商業組織中的一個重要程式，採用結構化方法無疑是有用的。手稿的關鍵優勢在於所選擇的方法，該方法允許將定性和口頭特徵轉換為模糊數。我所看到的關鍵弱點是結果的呈現，尤其是論文的第二部分，其中經常會發現一個表格後面緊跟著一個數位，緊接著是另一個表格。這需要解決。這篇文章需要有一個更自然的流程，表格或圖表的含義在文字中得到了很好的解釋，沒有任何解釋，它們不會互相遵循。不太清楚的是擬議方法的實際影響。文章指出，該方法適用於臺灣的情況，但不清楚該方法的應用是否允許選擇一名更合適的個人作為部門首長，而不是選擇沒有擬議方法的候選人。換言之，在結論中需要更清楚地說明該方法的應用如何改進選擇程式，選擇了誰，在傳統評估中被忽視的其他質量是什麼。

這將使報紙更具吸引力。

可能需要考慮以下方面：

- 1) 這篇文章將受益於對結果的更清楚解釋。現時，有些領域的表格後面是數位，後面是表格，這有點難以理解。這將需要重新設計，以提供更自然的文章流程，以更合理的管道解釋某些表格和圖表的

含義；

2) 第47行：需要將點 (.) 替換為逗號 (,) 。

3) 第191-192行該句需要文體更正；

4) 第244-247行公式中的符號和索引需要徹底檢查和更正。

5) 結論將有助於更清楚地解釋擬議方法與現有方法相比的優勢，擬議方法的應用如何改變選定的候選人，傳統評估中忽略的其他質量是什麼。

6) 標題有兩個不幸的拼寫錯誤：“Multple Atttribute” 應該改為 “Multiple Attribute” 。

總的來說，我建議進行一次重大修訂，重點是研究結果的清晰性，以及與類似物相比所提出方法的價值的解釋。

可以發現 senior executive competence and a two-way relationship with senior executive traits

在本研究中試著朝向更多的專業視角來觀察組織在決定高階主管的發展過程，並且專注在多數人選當中選任出最佳人選，與以往研究方向針對預定接任者具備能力有所不同，其所建立的架構可以顯示候選人上能力不足之部分，可同時作為組織在各功能別主管之培訓參考。

多數研究者在組織管理議題中，當有研究在高階經理人的特質或者是接班人的培訓或具備的條件上，會偏向以質性研究方法來進行探討，著重在對個案公司進行訪談，而歸納出一致性的觀點，來作為企業在培訓高階經理人之參考，其探討的框架會較偏向既定人選以及同個場域下受訪者所提供的實務經驗，難免會有在相同企業環境下產生相似的思考模式，故本研究透過不同環境職場的專家以不同的研究方法來進行分析，試著建構出企業高階主管的人選任用參考，相對可以突顯出關鍵因素的權重及相關性，作為企業在組織的發展上較具體的參考。

參考文獻也包括高層管理團隊的能力，基於 Brinckmann [31]

Reference included the competencies of top management teams too, based on Brinckmann [31]

取消 圖Figure 2. Entrepreneurial management-competence domains.

取消 Figure 11. Causal relationships of constructs. 放 407 table 8 shows senior executive competence and a two-way relationship with senior executive traits.

4. Report 1 更改部分說明 (0904)

The article 'Evaluating Appointment of Division Managers Using Fuzzy Multiple Attribute Decision Making' is presenting a new method of evaluating division managers at a high scientific level. In general, the article makes a positive impression and is written in the best traditions of operations research in Taiwan.

The authors introduce a methodology based on fuzzy set theory and explain in great detail the foundations of the methodology and the approach. The selection of the division

managers is an important procedure in business organizations and having a structured approach would undoubtedly be of use. The key manuscript strength is in the chosen methodology that allows working with qualitative and verbal characteristics converting them into fuzzy numbers. The key weakness as I see it is the presentation of the results, especially the second part of the paper where often times a table is found followed by a figure followed immediately by another table. This needs to be addressed. The article needs to have a more natural flow, where the meaning of the table or a diagram are explained well in the text and they do not follow one another without any explanations. What was not so clear is the actual practical implications of the proposed methodology. The article states that the method was applied in the Taiwanese context but it is not clear if the application of the methodology allowed to select a more suitable individual as a division head as opposed to the candidate selected without the proposed methodology. In other words, it needs to be made clearer in the conclusions how the application of the method improved the selection procedure, who was selected, what were those additional qualities that were overlooked in the traditional evaluation.

This would make the paper much more appealing.

The following aspects might need consideration:

1) The article would benefit from a clearer explanation of the results. Currently there are areas where a table follows a figure followed by a table, which is a bit difficult to comprehend. This will need to be redesigned to provide a more natural flow of the article, explaining what is meant by certain tables and charts in a little bit more logical manner;

取消圖2 (重複敘述 原表格已敘述)

取消 圖11 (直接將結果敘述在文章文字中，說明相互關係)

2) Line 47: a dot (.) needs to be replaced with a comma (,).

已更改

3) Line 191-192 The sentence needs stylistic correction;

已更改

4) Line 244-247 Signs and indices in the formulas need to be thoroughly checked and corrected.

更改前 (公式格式跑掉)

更改後 (翻譯時格式轉換未顯示，已修正)

5) The conclusions would benefit from a clearer explanation of what are the advantages of the proposed method compared with existing approaches, how the application of the proposed methodology changed the selected candidate, what were additional qualities that were overlooked in the traditional assessment.

針對本項目及結論(審核者1重點) 皆希望再闡述清晰與其他類似方法比較，及採用本方法的價值(我理解的部分，以致我再結論部分，增加論述(因為再等第二未審查者所以尚未翻譯)，再請老師針對我補

充部分，方向對否? 看能否再強化，再幫我加註，感謝

在本研究中試著朝向更多的專業視角來觀察組織在決定高階主管的發展過程，並且專注在多數人選當中選任出最佳人選，與以往研究方向針對預定接任者具備能力有所不同，其所建立的架構可以顯示候選人上能力不足之部分，可同時作為組織在各功能別主管之培訓參考。

多數研究者在組織管理議題中，當有研究在高階經理人的特質或者是接班人的培訓或具備的條件上，會偏向以質性研究方法來進行探討，著重在對個案公司進行訪談，而歸納出一致性的觀點，來作為企業在培訓高階經理人之參考，其探討的框架會較偏向既定人選以及同個場域下受訪者所提供的實務經驗，難免會有在相同企業環境下產生相似的思考模式，故本研究透過不同環境職場的專家以不同的研究方法來進行分析，試著建構出企業高階主管的人選任用參考，相對可以突顯出關鍵因素的權重及相關性，作為企業在組織的發展上較具體的參考。

已更改

Overall, I am proposing a major revision focusing on the clarity of the research results and explanation of the value of the proposed method compared to the analogues.

5. Report 2

Comments and Suggestions for Authors

The manuscript refers to the important issue of selection of criteria for appointing the division managers and ranking them with accordance to their priority. The research is very interesting and generally well-done. However, there are some issues that should be addressed in order to improve the quality of the manuscript.

- There should be specified aim of the research also in the Abstract.

The description has been added in line 24-25

- Figure 1 has no title.

Title has been added line in 121

- Tables 2 and 3 have the same titles. They should be different.

We have changed in 148

- Figure 4 is a little obscure. It contains traits. On the right there are four alternatives. Are they the four managers, whom we have to rank?

The description has been added in line 198

- Table 6 should have the four groups of criteria better separated.

Has been specified separately (page 10-11)

- It would be good to write some interpretation of Figure 4 and Table 6.

The description has been added in line 242

- The criteria are marked from A1 to A22. Letter "A" can be confused with alternatives. Therefore, I propose to use other letter.

We have changed

- Table 6 contains 22 criteria. However, in further steps of the analysis, six of them (from A17 to A22) are omitted. Why? There is nothing about it in the text. Please explain this.

The description has been added in line 505

- I recommend to change the Table 11 - let the criteria be in rows and the alternatives in columns. Then we could put the information from Table 12 into Table 11 and we can remove Table 12.

The tables have been integrated (page 21)

- In general, please give some interpretation to each table and each figure and describe the transition into another step of the analysis. It would help in better organisation of the manuscript.

We have organized some tables and charts, and replaced them with texts so as to give a clear description (the original Figure 2 and Figure 11 are removed)

- The Discussion section is insufficient. The discussion means that you discuss the obtained results against results of similar research done by other researchers. In your discussion you cite just one source. It should be extended.

The discussion content has been added in line 505-519

給作者的意見和建議

稿件提到了選擇部門經理的標準選擇並根據他們的優先級對其進行排序的重要問題。這項研究非常有趣，而且總體上做得很好。但是，為了提高手稿的質量，還需要解決一些問題。

- 摘要中也應明確研究目的。

其目的是讓企業在選擇高階主管時能有所參考

- 圖 1 沒有標題。
- 表 2 和表 3 具有相同的標題。他們應該是不同的。
- 圖 4 有點模糊。它包含特徵。右邊有四種選擇。他們是我們必須排名的四位經理嗎？

Alternative1 to alternative 4 represent the four managers ranked 194

- 表 6 應該更好地將四組標準分開。
- 最好對圖 4 和表 6 進行一些解釋。

- 標準從 A1 到 A22 標記。字母“A”可能會與其他選項混淆。因此，我建議使用其他字母。改成 T

- 表 6 包含 22 個標準。然而，在進一步的分析步驟中，其中的六個（從 A17 到 A22）被省略了。為什麼？文中沒有任何關於它的內容。請解釋一下。

故依據總影響矩陣以門檻值0.41為門檻值

- 我建議更改表 11 - 讓標準在行中，替代項在列中。然後我們可以將表 12 中的信息放入表 11 中，我們可以刪除表 12。

已更改

- 一般而言，請對每個表格和每個圖形進行一些解釋，並描述向分析的另一個步驟的過渡。這將有助於更好地組織手稿。

以將部分表格及圖表整理，並以文字敘述替代，以期使描述更加順暢(取消圖****)

- 討論部分是不夠的。討論意味著您將獲得的結果與其他研究人員進行的類似研究的結果進行比較。在您的討論中，您只引用了一個來源。應該延長。

6. 親愛的陳先生（審查通知）

親愛的陳先生，

再次感謝您提交稿件：

7. 參考更改方法

Author's Notes

- you suggest that you study commitment to CSR. There is a lot of literature on this subject. Could you please develop your literature review!

We've added some more content and discussion concerning corporate commitment, also have inserted in discussion& conclusions with red font,(see page 14)

2. Discussions. I think that your analysis of your interviews is somewhat superficial. Can you please improve this analysis!

We've added more details concerning the method with red font,(page 14)

Author's Notes

- in abstract it should be emphasized that the studies relate to HRM and the Authors should add basic conclusions from the research,

We've added narrative, inserted in the abstract marked with red font(page 1)

- theoretical introduction should expand the literature on the role of HRM in the concept of CSR,

Authorities should be included among the stakeholders (p.4, point 5),a brief overview of research on a similar topic must be provided,

We've put more Literature Review and dialogue concerning the concept of stakeholders marked with red font,(page 3)

- The methodological part should clearly specify when the survey was conducted and which method was used to the respondent selectin.

We've rephrased the ideas of methodology, especially in Materials and Methods with red font,(page 9)
